The Employee Housing Program's primary objective is to provide adequate, safe, major maintenance free housing and comfortable living conditions for Navajo Nation employees with minimal complaints. Continue to provide a comprehensive quality maintenance program for all housing units. Our existence and continued success is dependent on how well we provide quality operating and maintenance services.

The housing unit's range from Efficiency (studio) apartments, duplex apartments, and two to four bedroom units. The number and location of housing units are as follows:

- ❖ 132 Housing units in Window Rock, Arizona
- ❖ 18 units in Fort Defiance, Arizona
- ❖ 1 unit in Shiprock, New Mexico; and
- ❖ 1 unit in Mexican Springs, New Mexico

All (152) housing units are maintained by skilled craftsmen by way of maintenance services requested by submittal of a work order or an emergency work order (after 5:00 pm). Maintenance is provided in several trades, i.e. appliance, carpentry, cabinetry, electrical, painting and plumbing services on a 7 day a week basis. Pest Control Services and Refuse Services are provided for each unit.

The Employee Housing Program receives its annual funding from revenue collected from housing rentals.
